Export of Delay Performance Metrics in IPFIX

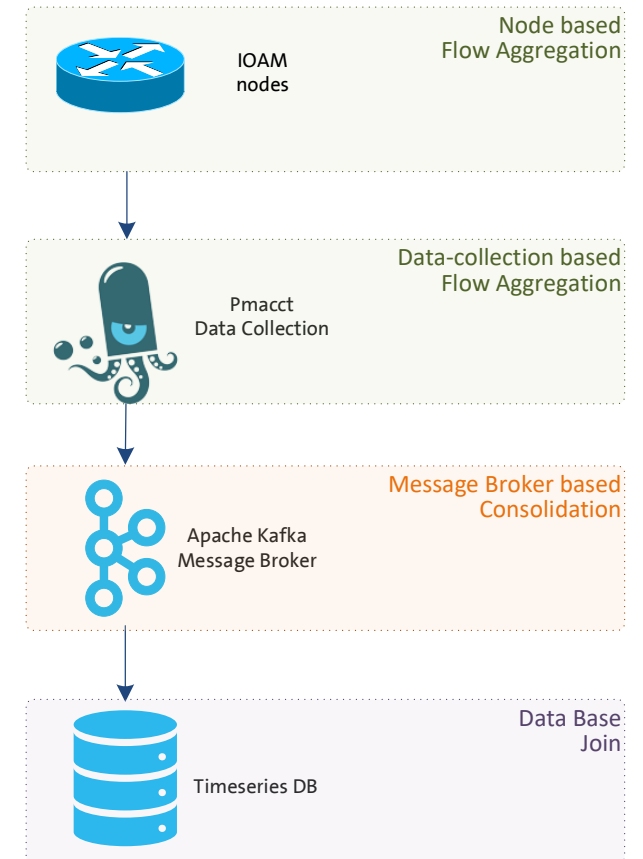

Draft Status and Next Steps

Draft Status

- -14 passed working group last call.
- Incorporated editorial input from Paul Aitken, Menachem Dodge and Martin Duke in -15. Thanks a lot!
- Defined OAM terms and removed normative dependency from draft-ietf-opsawg-oam-characterization in -15.
- Giuseppe Fioccola volunteer shepherding. Thanks a lot!

Next Steps

- No open items.
- Looking forward to shepherd write up and moving forward to IESG.
